UI UX Designer

Edvak Health - Full time

Oct 2022 - Present - 1 year 1 month

I played a crucial role in the entire lifecycle of the product, from joining at its initial stage to successfully overseeing its launch to clients within a year—a launch that proved to be highly successful. Currently overseeing the complete redesign of the product's version 2, leading end-to-end design changes across all functionalities. collaborated with multiple third-party companies to optimize the product's flow, and I played a pivotal role in the implementation of medical billing—a critical process in healthcare billing. Additionally, I am spearheading the redesign efforts for the company's website, landing pages, and pitch decks.

UI UX Designer

Lincode India - Full time

Oct 2021 - Aug 2022 - 11 mos

I contributed to a team tasked with redesigning the flow and UI of the company's product, website, and all related materials. I collaborated closely with the Product Vice President and successfully implemented numerous new functionalities for the product.

Key Skill Developments:

- Acquired proficiency in creating 3D models for business proposals.
- Enhanced time management skills.
- Increased efficiency in working with Figma.
